About Myself

I am a passionate and self-motivated Computer Science student with a strong foundation in **Project Management, Software Development Life Cycle(SDLC), Data Structuring and Algorithm**. With a deep interest in research and innovation, I've contributed to multiple publications and recently presented at esteemed international conferences, including I4SOT'25 at KCST in Kuwait and ICAIN'25 in UAE (Dubai). I firmly believe in my ability to learn, lead, and create impact through research-driven, tech-enabled solutions. My goal is to bridge the gap between intelligent systems and practical applications by developing solutions. [GitHub](#) 🔗

Driven by curiosity and a belief in continuous learning, I'm actively exploring opportunities where I can contribute meaningfully through research and develop tech solutions. I'd love for you to check out my work and connect further on LinkedIn: [dhruv-dhayal-9568b7262](#) 🔗.

Skills

- **Technical Skills:** JAVA (DSA), JAVA (OOP'S), Project Management, GitHub, Da VinciResolve, AI/ML, SQL RDBMS, SDLC (Software Development Life Cycle)
- **Soft Skills:** Good Communication, Team Leadership and Project Management, Public Speaking and Presentation, Critical Thinking and Problem Solving, Adaptability and Continuous Learning, Collaboration and Mentorship.
- **ORCID-ID** 🔗 a Researcher-ID, which refers to showcasing my projects and publications.

Education

Guru Gobind Singh Indraprastha University (GGSIPU)

June 2022 – July 2025

Institute of Information Technology and Management (IITM), Janakpuri

Bachelor's in Computer Science Applications (BCA)

- GPA: 9.654/10 ([IPU RankList](#) 🔗)
- **Coursework:** Data Structures and Algorithms, Object-Oriented Programming (C++/Java), Operating Systems, Computer Networks, Software Engineering, Linear Algebra and Probability, Artificial Intelligence and Machine Learning.

Amity Institute of Information Technology (AIIT)

August 2025 – July 2027

Master's in Computer Science Applications (MCA)

- SGPA: 8.68/10

Experience

Project Manager Intern

Project Management

Internware

Department, Delhi

June 2023 – Sep 2023

- Worked as part of the Project Management Department in a multidisciplinary team environment
- Assisted in planning and coordinating projects while aligning team goals with department outcomes
- Engaged in project life-cycle execution, from ideation to final reporting
- Contributed to business development, content creation, and technical documentation
- Gained exposure across departments such as **Management, Technical Staff, and Business Strategy**.

Summer Trainee AI/ML

Metafiser, Delhi

Artificial Intelligence Cell (AI)

June 2024 – July 2024

- Worked on developing an AI-based Spotify Music Recommendation System using hybrid models (content-based + collaborative filtering)

- Learned the core principles of machine learning, data preprocessing, feature engineering, and model evaluation
- Conducted team meetings, set milestones, and tracked performance using agile methodologies
- Explored real-world applications of AI in automation, IoT, and personalized user experiences
- Strengthened teamwork, research, and software deployment skills through collaborative tasks and feedback sessions

Chapter In Publications

- IntelliGuard: IoT-Enabled Autonomous Spybot Intelligence for Real-Time Surveillance in Next-Generation Security Applications** 1st Feb 2026
Authors: Dhruv Dhayal, Pratham Aggarwal
Mentor: Prof. (Dr.) Manzoor Ansari
Publisher: SpringerNature, Singapore
Book Series: Lecture Notes in Electrical Engineering (LNEE, Volume 1513), pp.163–173

Projects

- IntelliGuard Ver.2** github.com/BlockNotes-4515/IntelliScout-Ver.2
- Developed IntelliGuard Ver.2, an advanced Spybot Monitoring System for real-time surveillance and feedback transmission.
 - Integrated radar-based obstacle detection and provided visual feedback for enhanced monitoring.
 - Implemented manual and automatic hybrid modes for flexibility and control in operations.
- Cyber Rover Ver.1 IoT based Robotic Car (Vision Wheels)** github.com/BlockNotes-4515/Adruino
- Designed and developed an autonomous obstacle avoiding robot using Arduino.
 - Implemented ultrasonic sensor-based detection for real-time obstacle sensing.
 - Programmed motor control logic for stop, reverse, and directional movement.
 - Applied core concepts of embedded systems and automation for practical robotics.

Volunteer Experience

Volunteer — Kind Beings NGO

Jan'2026 - Mar'2026

- Contributed to community-driven social initiatives, supporting planning and execution of NGO-led activities.
- Assisted in event coordination, awareness campaigns, and on-ground operations to enhance community engagement.
- Collaborated with cross-functional teams to ensure smooth execution of programs and maximize impact.
- Recognized with an Appreciation Certificate for consistent contribution, dedication, and active participation.
